

# Quality & Environment Policy

Suez Cement, Tourah Cement and Helwan Cement have been committed to produce cement and other building materials for the construction activity in Egypt for many decades. Today, as all the companies of the Group worldwide, Suez Cement, Tourah Cement and Helwan Cement have undertaken a new commitment with the objective of finding an improved balance between business growth, Environment Protection and social responsibility.

## We are committed to:

- Producing and selling cement and building materials
- Satisfying customer's needs and expectations.
- Complying with the legal requirements and concerned parties.

## We are aiming at the highest levels of:

- Products quality.
- Environment friendly operation.
- Customer satisfaction quality.
- Innovation and business opportunity.

## Our way to achieve them through:

- Better utilization of the natural resources.
- Use of best available techniques with low cost.
- Continuous training of employees.
- Better working environment.
- Continuous monitoring and controlling of our pollutants.
- Use of Alternative fuel and alternative Raw Material.

## Continuous improvement of:

- Employees.
- Products.
- Equipments.
- Environmental performance.
- Surroundings.

## Our commitments:

- Safety.
- Superior quality.
- Sustainable development through:
  - ✓ Society development.
  - ✓ Clean environment.
  - ✓ Economic Development.
